Subject: FW: Media Request for Wayne Cascio

Hi- before I send this to anyone else, any concerns about Wayne doing this interview? David, Wayne has done quite a few of these types of interviews over the past year.

Hello Dr. Cascio,

My name is Robin Epley and I'm a reporter with the Chico Enterprise-Record. As I'm sure you know, Chico and the surrounding area was subject to the devastating effects of the recent Camp Fire last November. Our community is still recovering, and will probably take years to return to normal.

Though the tangible damage is contained to the burn scar area, I am concerned with the less visible effects of those days on our community -- namely, the damage to our bodies and health from the particulate matter in the smoky air. Chico had an unprecedented AQI in the 400s for a few days, and the entire North State Valley was inundated with wildfire smoke.

I am planning a series of articles with a companion podcast for our newspaper, and I am hoping that you will be interested and able to speak with me on the subject matter.

Please let me know your thoughts, and when might be a good time for an interview. We can conduct it over the phone or by Skype, whichever is preferable for you.

I look forward to speaking with you more,

--
